

VSR Mobiles

Welcome to the help section

This program is built for managing a mobile store. There are two types of log in's available one is for admin and another one is for the customer. Lets go with the customer features.

Customer Features

Customer Feature - 1 (Exploring Mobiles)

Here you can explore the mobiles from the available companies and you can sort phones based on Year of Release, Operation System, Company Name.

Customer Feature - 2 (Buying Mobile)

You can directly but the mobile according the stock available.

Customer Feature - 3 (Writing a Review)

You can write reviews for the available phones in the store.

Customer Feature - 4 (Request New Phones)

You can request new phones from the companies available in the store

Admin Features

Admin Feature - 1 (Viewing Customer Logs)

The Admin has the ability to see the customer log in time and date.

Admin Feature - 2 (Viewing Customer Requests)

The Admin has the ability to see the customer requests and to satisfy them.

Admin Feature - 3 (Add a new Phone)

The admin has the ability to add new phones to the database

Admin Feature - 4 (Restock Phones)

The admin has the ability to restock phones that are present in the database

Hope this help menu is useful to you. Thank you for visiting VSR Mobiles
